Dear Hagerty High School Parents,

We have exciting news to share with you! Our school has been selected as one of nine schools to pilot the latest safety measures for our bus riders. This is set to begin on March 1st and run through the end of the school year.

This new system features a tablet on each bus and students will tap a card when they board the bus and tap it again when they depart at their stop. We will have the cards to distribute to bus riders. Students will not be able to use their Minga ID for this as the physical ID will have an RFID embedded in them. This ID will only be used for transportation purposes. We will use Minga for everything else on campus. If the student forgets their bus ID, the bus driver will tap the student on and off the bus.

The cards do not have any tracking capabilities themselves, they only serve to record who and where students board and disembark.

We are thankful for all of the ways that not only school safety and security are considered on our campuses but during the student transition from home to school.

If you have any questions about this new safety initiative we will be piloting and then launching district-wide next school year, please call our Transportation Department at 407-320-7555.
