

# Now is the perfect time to schedule a sports EKG.

We can screen for undetected heart issues in just **20 minutes** for only **\$20**.

## Why schedule a sports EKG?

1. Undetected heart issues can put athletes at risk.
2. Screening EKGs are a **noninvasive, painless** way to detect many heart conditions.
3. The screening takes just **20 minutes** and costs only **\$20**.\*
4. Results are available in **24 hours** in the Nemours app.
5. Sports EKGs are **mandatory** for student athletes in many Florida counties, including Orange, Osceola, Brevard, Seminole, Highlands and Suwanee.

**Appointments are available at Nemours Children's Health locations throughout Central Florida.**

PLEASE NOTE: This screening sports EKG does not take the place of a required sports physical — you will need to schedule the physical exam with your child's pediatrician who can then complete the sports physical form. You can print your child's EKG results from the Nemours app and attach them to the completed form.

*\*Our clinics are cashless. Payment can be made via the Nemours app or credit card.*

To schedule an appointment, call **407.567.6780** or scan the QR code.
